**Re: Terminal Services Agreement (the "TSA") dated December 28, 2016 between
Ingleside Crude, LLC ("Ingleside") and BSN Industrial, LLC ("BSN")**

Ingleside hereby advises BSN that BSN is non-compliant with Item 4.1.3 of the TSA, which states in part... "Security Deposit shall be due and payable to Customer 10 days after Customer has vacated Tank 13 *and both Tank 13 and 16 have been cleaned and certified as set forth herein (emphasis added).*" Although Mr. Nick Wuertz provided a 30-day termination notice on June 30, 2017, Tanks 13 and 16 were not cleaned as specified in the TSA at the end of the notice termination period (on or about July 30, 2017). Further, BSN's product remained in the tank during the month of August and remains in the tank currently.

As BSN is aware, the Terminal Facility is a "Superfund Site" as designated by the U.S. Environmental Protection Agency (the "EPA"). Therefore, the Terminal Facility (including its associated storage tanks) are subject to stringent cleanup and oversight requirements by the EPA. As is also stipulated in Item 4.1.3 of the TSA, the Security Deposit does not represent a cleaning deposit. Until Tank 13, Tank 16, and the pipeline to the barge dock have been cleaned and certified, Ingleside will not release the Security Deposit and rent shall continue to accrue.

This letter shall also serve as a demand for payment of outstanding and unpaid Invoice Nos. 1107, 1108, and 1111, which are attached hereto.

Sincerely,

Jonathan P. Carroll
President
